Location: San Francisco, CA

PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience in full-stack web development. Proficient in Python, JavaScript, and React. Strong background in building scalable applications and RESTful APIs. Experienced in cloud technologies including AWS and Docker.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL
Frameworks: React, Node.js, FastAPI, Django, Flask
Tools & Technologies: Git, Docker, AWS (EC2, S3, Lambda), PostgreSQL, MongoDB
Other: REST APIs, CI/CD, Agile/Scrum, Test-Driven Development

WORK EXPERIENCE

Senior Software Engineer - Tech Corp Inc.
January 2021 - Present
• Developed and maintained microservices architecture using Python and FastAPI
• Built responsive web applications using React and TypeScript
• Implemented CI/CD pipelines reducing deployment time by 40%
• Collaborated with cross-functional teams in Agile environment
• Mentored junior developers and conducted code reviews

Software Engineer - StartUp Solutions
June 2019 - December 2020
• Designed and implemented RESTful APIs serving 100K+ daily requests
• Optimized database queries improving performance by 60%
• Integrated third-party services including Stripe and Twilio
• Wrote unit and integration tests achieving 85% code coverage

EDUCATION

Bachelor of Science in Computer Science
University of California, Berkeley - Graduated: May 2019
GPA: 3.7/4.0

PROJECTS

E-Commerce Platform - Built a full-stack e-commerce application using React and Django
Task Management App - Developed a real-time collaboration tool with WebSocket support
Open Source Contributions - Active contributor to FastAPI and React libraries
